PARIS, KENTUCKY, TUESDAY, SEPTEMBER 8, 1914.

LATE WAR NEWS.

ANTWERP, Sept. 6. (Via London.)—The French legation here today officially confirmed the previously announced success of the Anglo-French troops who are said to have brilliantly driven the Germans back some fifteen miles beyond St. Quentin, inflicting considerable losses.

LONDON, Sept. 6.—In a desperate attempt to counterbalance the great victories of the Russians over the main Austrian army in Galicia, Germany has started a force over the Russian border, with Warsaw as its apparent objective.

Supported by a great armored train, this force met its first opposition at Vlodavack, a small town 10 miles within the Russian frontier, according to late dispatches arriving here.

USING ITS OWN PLANT.

After many trials and tribulations in the matter of furnishing light and power to its consumers in this city the Paris Gas & Electric Co., has placed its local plant in first-class condition, and will be under steam at all hours of the day and night. The annoying interruptions to the service which occurred some time ago, when the current failed because of weather conditions, will be entirely eliminated.

SUCCESSORS TO DR. MATTHEWS

We beg to advise you that we have taken over from Dr. Clara B. Matthews her entire stock of optical prescriptions.

This places us in a position to replace your broken lenses to the correct STRENGTH, SHAPE and CURVE.

Our prices you will find to be as low as the lowest and our work that furnished by the best house of its kind in the country.

We most earnestly solicit your business—for replacing your broken lenses—or furnishing new lenses—as per the prescription for your glasses which we now hold.

We guarantee you prompt and efficient work, and best of all, quick service from the factory.

Thanking you in advance for any favors shown us in this line, we beg to remain,

Very truly yours,

MARRIAGES.

SHOTWELL—HAMM.

—Thomas Shotwell and Miss Birnie Hamm, both of the Escondido neighborhood, obtained a marriage license Saturday, and were married at the court house by Judge C. A. McMillan.

MITCHELL—EYER.

—The State Journal, published at Frankfort, Ky., on Tuesday, September 3, says:

"News has been received here of the marriage in Milwaukee, Wis., Tuesday, of Mrs. Henrietta Ford Mitchell, formerly of this city, and Mr. F. D. Eyer, Mrs. Eyer, who is a native of Paris, Ky., left that city some five months ago, for Milwaukee to make her home with her aunt temporarily, but during her visit, it seems has been persuaded to make it her permanent residence.

"Mrs. Eyer was the widow of Elliott Ford, and during her residence here made many friends, who will be interested to hear of her marriage."

Mrs. Ayer was formerly Miss Henrietta Taylor, daughter of Mr. and Mrs. Newton H. Taylor, who formerly resided near Paris, Mr. and Mrs. Taylor now reside in Canada.

DENTON—THOMAS.

A marriage that will be a surprise to many of the young people's friends, although expected to take place in the near future, was that of Mr. Douglas Thomas, Jr., and Miss Jessie Denton, both of Paris, which took place in Winchester yesterday afternoon.

There was no parental objection to the marriage, but the young couple decided to make the event a quiet one, and chose Winchester as being on the honeymoon route.

A marriage license was granted the couple yesterday morning and, accompanied by Mr. Robert Adair and Miss Mary Hayden, they left in an automobile for Winchester, where the ceremony was performed later in the afternoon.

Immediately after the ceremony, Mr. and Mrs. Thomas left for a short stay at Oil Springs, from where they will go to Toronto for a week's sojourn. Upon their return they will go to housekeeping on Stoner Avenue.

The groom is a son of Mr. and Mrs. Douglas Thomas, of this city, and is one of the most popular young men in the city.

The bride is a daughter of Mr. and Mrs. Cranville Denton, of South High Street, and is a young woman of many graces of character, handsome and attractive.

The news, in common with the many friends of the young couple, extends hearty congratulations and good wishes.

SATURDAY NIGHT SHOOTING

In a difficulty arising between dancers at a negro dance at the Fair Grounds near this city Saturday night Press Lannum, a well-known negro, who has often figured in police records was shot and killed. Andrew Dale received a shot in the hip, and Henry Morton, of the Clintonville precinct, was shot in the right leg and his right wrist shattered by a bullet.

The shooting was the result of a dispute that arose over the right of one negro to dance with a sister of the Morrison man, who was one of the victims of the fusillade. Morton attempted to persuade his sister to go home, and the negro man resented his interference, with the result above told. Lannum, as a bystander, was in the line of fire and was shot through the breast, dying instantly. Special Policemen Ad McKinney and Violette were called to the scene by the sound of the shots and they dispersed the crowd that had gathered. Coroner Rudolph Davis and the Paris police were notified, and went to the scene of the shooting. Morton was taken to the office of Dr. J. T. Brown, where his wounds were dressed and he was afterward taken to his father's home at Clintonville. Dale was carried to the office of Dr. D. B. Anderson, and was afterward removed to his home in the negro suburb of Lylesville.

The body of Lannum, after being viewed by Coroner Davis, was removed to his late home in the negro suburb of Kennedysville. Lannum bore an unsavory record and was known as a trouble-hunter, but in this instance was a peaceable bystander.

Coroner Davis will hold an inquest this morning at 10 o'clock. Twenty-five witnesses have been summoned, and their testimony is expected to clear up the mystery that seems to surround the shooting.

COUNTY TEACHERS' INSTITUTE ADJOURNS

The Bourbon County Teachers' Institute, which has been in session at the court house since last Monday morning, adjourned at noon Friday.

Miss Julia Clark gave a talk on "Busy Work," followed by a discussion led by Mr. Eubank, the institute instructor. Miss Martha Smith, of Millersburg, gave readings, and Mr. Milton Elliott, of Frankfort, addressed the teachers, on "Service." Prof. Elliott spoke on "Discipline."

A quartet composed of Misses Desha and Ewean and Mr. Eastwood and Prof. Ellett sang.

Prof. B. M. Roberts introduced the subject of "History," which was followed by a discussion led by Mr. Eubank.

Prof. Roberts offered a resolution of thank to every one who had added to the pleasure and interest of the institute. It was unanimously adopted by the teachers, who also gave a vote of thanks to A. L. Botwright for his services in leading the music. After singing the doxology the institute adjourned.

WIRE THIEVES BUSY.

Wire thieves have been very busy along the line of the L. & N. railroad lately and company detectives in connection with local officials of Paris and Cynthiana are making a determined effort to apprehend them. A large quantity of copper wire has been recently stolen from the telegraph poles between Paris and Cynthiana. At the latter place a bunch of 300 pounds of the wire was found by the police hidden in an out of the way house near the railroad. The railroad detectives say they have evidence that will shortly cause the arrest of the thieves who have stolen and disposed of the wire and that they will submit the evidence to the grand jury of Harrison county at its next meeting. The wire was worth several hundred dollars and was to have been used in the new electric block system being installed by the L. & N. The suspected parties are being closely watched and arrests are expected to be made soon.

INSURANCE PAID

Mrs. Juliet Nichols has received of Mr. H. C. Henson, secretary of the local lodge of Modern Woodman of America a check for \$2,000, being the amount of an insurance policy in that order held by her son, the late Thomas B. Nichols, who died some time ago at his home on the Bethlehem pike.

SUDDEN DEATH.

Miss Mary Thompson, aged 56 years, a domestic in the home of Mr. and Mrs. Henry Fuhrman, died suddenly yesterday afternoon about 3 o'clock while seated in a chair in the dining room.

Mrs. Fuhrman, happening to pass through the room, saw Miss Thompson apparently asleep and trying to arouse her, discovered that she was dead.

Miss Thompson had been in declining health for several months. She had been in the Fuhrman home about ten years. She was the daughter of the late John Thompson, of Paris, and was born in this city. Miss Thompson is survived by one sister, Mrs. Margaret Kearns, of Lexington. The remains were taken to the residence of Mrs. Luke Connelly, on Stoner Avenue.

LUMBER PLANTS DESTROYED BY FIERCE FIRE.

Plants of Stivers Lumber Co. and Flora Lumber Co. Burned.

PROPERTY LOSS VERY LARGE.

Telephone Companies and Interurban Service Temporarily Interrupted.

Fire originating from an unknown cause early last night destroyed the plants of the Stivers Lumber Co. and the Flora Lumber Co., on South Main street.

The fire began in the Flora Lumber Co.'s building adjoining, and in a few hours both plants were completely destroyed.

The Stivers plant, which was a total loss, was built in 1903 by Wm. F. Ardery and O. Edwards, at a cost of \$7,000 and was afterward purchased by Mr. J. H. Stivers. Mr. Stivers had insurance of \$6,000 on building and \$1,000 on stock, worth \$4,000. Of this sum \$6,000 was carried in the agency of McClure & Clendenin.

Mr. Albert Wright lost a carload of cement worth \$250. Ossiard Edwards' loss on sash, door, blinds and interior finish was \$300.

The Flora Lumber Co.'s loss will be about \$4,000. They carried insurance the exact amount of which could not be ascertained.

Mr. Stivers saved his office fixtures, books, etc. His building was pronounced one of the best built warehouses in the city.

The telephone, telegraph and electric service, as well as the Interurban electric car service, was temporarily put out of commission. All the telephones of the Cumberland Telephone Company in South Paris were put out of commission by the burning of wires, cables and poles.

The fire was one of the most spectacular, as well as disastrous ones, seen in Paris for many years.

An accurate estimate of the property loss in round figures is impossible to obtain to-night, owing to inability of the firms involved to get to their books and papers.

The fire was well under control at midnight. By hard work the fire was confined to the two plants destroyed, and was prevented from reaching the feed and commission house of Dodson & Denton, adjacent to the burned warehouses.

Fire, wind and lightning Insurance. Thomas & Woodford.

NEGRO SHOOTIST ARRESTED.

Rufus Johnson, colored, who shot Frank Dunsford, also colored, in Claysville about two weeks ago and made his escape, was placed under arrest Thursday morning by Sheriff Marshall and McClintock. In Judge McMillan's court he waived examining trial and was held to the grand jury in the sum of \$250.

NOTICE TO THE PUBLIC.

Our attention has again been called to reports which are being circulated to the effect that if the rates for telephone service now being charged by another telephone company operating in Paris, are permitted to be increased, then the Home Telephone Company would go out of business.

These reports were the first intimation the Home Phone Company had that such statements were being circulated. I can say positively that no negotiations for the sale of the Home Telephone and Telegraph Company, to, or its merger with the Bell Company, have ever been suggested or considered.

It is the intention of the Home Company to remain in business in Paris and its greatest desire is to merit the continued patronage of its subscribers by furnishing the best possible local and long distance telephone service to the public at a REASONABLE AND FAIR RATE AT ALL TIMES.

A woman's organism is a very delicate thing—it very easily gets out of order—just like a delicate piece of machinery, it requires more than ordinary care and attention.

There are many signs which point to disorder, such as headaches, unaccountable pains in various parts of the body, listlessness, nervousness, irritability, dizziness, faintness, backache, loss of appetite, depression, and many others.

TOBACCO STEMS AND STALKS

Should the demand of Europe for American tobacco stems cease, these stems, which contain large quantities of plant food, especially potash, may be used to good advantage by the American grower of tobacco as fertilizer. Soil fertilized by these stems secured from the cigar and tobacco factories and stemmeries, will produce leaf-tobacco of better burning qualities and texture.

Tobacco stems as fertilizer should be applied in smaller quantities than manure, because they contain larger quantities of the constituents which feed the plant, according to the Department's tobacco specialists. Two tons per acre of "seed stems" (stems from cigar factories) or 2½ tons of "Kentucky stems" (stems from tobacco factories and stemmeries) are known to give good results in New England and, so far as available, these stems will undoubtedly furnish a very satisfactory source of potash, as well as other plant foods, in other sections.

Considerable quantities of tobacco stems have long been exported to Germany and other parts of Europe where they are often used in the manufacture of low grade smoking tobacco and as a source of nicotine.

Tobacco stems which are not removed from the farm under prevailing methods, are not always used to the best advantage as a fertilizer. Like the stems, they contain considerable quantities of valuable plant food (though not so much) and may be used freely as a fertilizer for tobacco and other crops. They may be profitably used to improve the hay lot by simply spreading the stalks over the land in the fall or they may be plowed under the same season for cultivated crops, such as cotton, corn, tobacco, etc. The practice of piling tobacco stalks in heaps and leaving them exposed to the weather means a waste of valuable material that might be returned to the soil. The practice of burning them is also wasteful unless they are infected by such a serious disease as the Granville wilt.

THE PUBLIC WILL APPROVE

A train conductor alleges that he was injured when he fell between two cars because of exhaustion after having worked three days and nights with but nine hours rest has received a verdict of \$75,000 damages in an eastern court. Heavy damages, but the verdict will be approved not only because the revenge of the conductor upon heartless employers will be popular, but also because the public is much concerned in the matter of whether trainmen are overworked so that they are exhausted and unfit for their duties.

It seems strange that a railroad would allow—much less require, men in important positions to work over time. But it seems to be common thing for engineers and other trainmen to be required to work until they are in no condition to perform safe service for the passengers of the road. No punishment for such practice can be too heavy.

BEWARE OF ANTI-FAT CURES.

Beware of so-called anti-fat "cures." That is the warning of the Department of Agriculture in response to numerous inquiries relative to specific remedies.

As a result of tests to determine the efficacy of a number of alleged "nostrums," the department asserts that practically all such preparations are absolutely worthless.

THE GERMINATION OF CRIMSON CLOVER SEED.

Since November 1, 1913, there have been imported into the United States 3,329,883 pounds of crimson clover seed. This seed comes mostly from France and Australia. Where the harvest season is practically the same as in this country. The time for sowing follows the harvest season so closely that only a part of the imported seed is received in time to be sown the year it is raised. If the conditions of storage are not the best the seed may lose materially in vitality between the time of harvest and that of seeding the next year.

New seed of good quality is free from any brownish color, but old seed shows varying degrees of brown according to age and conditions under which it has been stored. The brownish color is an indication of poor germination—the darker the color the poorer the germination. Seed which shows a slight brownish color should be tested for germination before sowing, and no brown seed should be used unless a germination test shows it will grow well.

Germination tests of the 119 lots of crimson clover seed imported in the last eight months show an average of 80 per cent. of live seeds. The germination varied from 40 per cent. for the poorest lot to 97 per cent. for the best lot. As crimson clover seed loses its vitality rapidly, and as practically all the imported seed is 1 year old before seeding, an effort should be made to save domestic seed wherever possible. This is especially true of seed for local home use, where it can be seeded without threshing or cleaning.

THE GYPSEY NUISANCE.

A band of Gypsies has been annoying the people in some of the Central Kentucky towns. One bunch, in particular, is carrying with it a herd of about 60 horses and makes a practice of allowing the animal to forage on the public highways. The Gypsies themselves are pretty good at foraging and are given to securing their substance by "ways that are dark and tricks that are vain." Some day when the people in the country towns get real tired of them a shotgun quarantine will be established and the Gypsies will find that there are no more "good pickings" in certain localities where they once reaped a bountiful harvest.

These Gypsies, or members of another band, are held responsible for the recent burning of a wheat field on the recent burning of a wheat field on the Lexington pike, near this city.

There wouldn't be so much misery in this world if it cost \$500 for a license to hunt trouble.

CHAMBERLAIN'S COLIC CHOLERA AND DIARRHOEA REMEDY

"I advised the 'boys' when they enlisted for the Spanish war to take Chamberlain's Colic, Cholera and Diarrhoea Remedy with them, and have received thanks for the advice given," writes J. H. Houghland, Eldon, Iowa. "No person, whether traveling or at home should be without this great remedy." For sale by all dealers.

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

SOMETHING ABOUT MONTAGUE GLASS.

Author of "Potash and Pearlmutter" Studied His Characters While Practicing Law.

It is interesting to know that Montague Glass, the author of the famous "Potash and Pearlmutter" stories in the Saturday Evening Post, studied his characters at first hand, while a young lawyer in New York City. In fact, the author now admits that he was often more interested in his clients than in their troubles and that it was the literary possibilities rather than the legal probabilities that attracted him during his service at the bar.

Young Mr. Glass, yes, Montague Glass is his real name, had what is known as a "commercial" practice and among his patrons were many "Abes" and "Mawrusses," but Mr.

Montague Glass, Author of Potash and Pearlmutter.

Glass insisted that his "Potash and Pearlmutter," Lawyer Feldman and the others are all composite characters. Of course, their adventures are pure fiction, but their speech, thought and actions are not, for during his ten years in practice the future literary celebrity stored his memory with an infinite number of details and when he finally began to sit down his fiction characters on people, he found it easy to invest them with that spirit of fidelity that did so much to command immediate recognition on the part of the reading public.

Mr. Glass' world-renowned characters will soon be seen here in the flesh and blood, for "Potash and Pearlmutter," the famous comedy, comes to the Paris Grand on Thursday, September 10, direct from its second year on the Cohan Theatre, New York.

CAN YOU BEAT IT?

John Duvall, the popular conductor-motorman on the Interurban city car, is peeved, because he can't make people understand that he doesn't know everything. While his car was waiting at the station the other day, Duvall unbosomed himself to the News man as follows:

"People have an idea that a street car conductor is a cross between an encyclopedia, a Webster Unabridged dictionary and a city directory. A woman asked me the other day to let her off on High street in front of some place where they sold second-hand dresses, and she got sore because I had to tell her I did not know of such a place.

"On another occasion, an old colored woman got on the car, and I noticed she seemed nervous and ill at ease. I asked her what the trouble was and she said she wanted to get off 'close to where Miss Fannie lived, somewhere up on Main street.' That's all the information I could get out of her, and I let her off at the turn on Fourteenth street, where she limped away looking for 'Miss Fanny.' Hope she found her.

"I have to listen to all sorts of queer queries, from wanting the time, to news from from the European war, but of course, am expected to be patient and forbearing through all."

"MORE RAIN, MORE REST"

Plenty of rain has fallen during the past week, enough to satisfy farmers in every part of the county. The heaviest showers of the week occurred Friday night, when a soaking rain fell, sufficient, to raise the streams and be of great benefit to crops. There is nothing to complain of now, live stock is thriving on the freshened pasturage, crops are rapidly maturing, and everybody is satisfied with the prospects.

High prices for food products of all kinds continue to prevail and will do so as long as the European war lasts.

Business of all kinds has been rather dull during July and August, but not more so than usual during the mid-summer months. With the drought broken, however, and cooler weather prevailing, merchants are greatly encouraged, and the prospect for a good fall trade was never better.

CLEAN UP.

Clean up your yards, cut your weeds, see that the street in front of your house is clean. Let it be a matter of personal pride with you that your premises present as good or better appearance than your neighbors. Much depends upon first impressions. Let visitors to our city when they leave take with them the memory of an orderly, well-kept town, whose citizens take pride in keeping it attractive, and the effect of this silent advertising will be far-reaching in its benefits to Paris.

Any married woman can tell you that the Mule hasn't any mortgage on stubbornness.

Father likes to lie in bed and read. But if he catches the children doing it he gives them Hall Columbia about Ruining their eyes.

HELP US TO LIVE.

To further the interests of the town in which you live, it is necessary to vie with each other in all public enterprises and lay aside any envious feeling that may creep into your nature. Don't "knock" your neighbor because by hard work and economy he has accumulated a few more dollars than you possess, but rather admire and encourage the example, to follow which might greatly better your own condition. There is a little something that every one can do that will add not only to the personal welfare of the individual, but prove a help to the community at large. With an eye ever to "self-preservation," one of the first laws of nature, then let us reach out to our neighbor a helping hand that he may encounter in a business or social way.—Exchange.

SIMPLEST WAY TO KILL A FLY.

The London Lancet, the leading medical journal of the world, says that the best and simplest fly killer is a weak solution of formaldehyde in water (two tablespoons to the pint of water.) Place in plates or saucers throughout the house. Ten cents worth of this liquid will last an ordinary family all summer. It has no offensive odor, is fatal to disease organisms and is practically nonpoisonous except to insects.

Stomach Trouble; Wholly Restored!

Mrs. Wilson Robison, 744 Nessler St., Toledo, Ohio, writes: "I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas, can eat most anything without it hurting me. I want to be working all the time. I have gained twenty-four pounds."

"People that see me now Mrs. Wilson Robison, and saw me two months ago seem astonished. I tell them 'Peruna' did it. I will say it is the only remedy for spring and all other ailments." No argument is needed for Peruna. Just get a bottle and try it. If you have catarrh of the stomach you have a serious trouble. If you want to find a remedy it would be very easy to make the experiment. Before you have taken Peruna a week you will likely find yourself better, then you will need no testimonials on the part of other people, or arguments to convince you. Until you try Peruna, however, all the testimonials in the world and arguments, however logical, will not move you. Just one trial of Peruna will convince you. Persons who object to liquid medicines can now obtain Peruna Tablets.

BUSINESS MEN AND TAX PAYERS OF MAYSVILLE

APPEAL TO THINKING VOTERS

Ask Mason Countians to Assist Them In Preserving the Trade and Business Prosperity of the City of Maysville and Mason County.

(Advertisement.)
Don't vote Paris off the map. Are the Paris merchants and property owners going to sleep and let the advocates of "prohibition" vote Paris off the map, raise the tax rate and absolutely kill the town? Lexington will beyond a doubt go "wet" through the concerted action of the business men and tax payers of Fayette. Imagine Paris in a class with Carlisle, Cynthiana and Richmond, with Lexington, Frankfort and Maysville wet. It would simply be murderous to the business interests of Paris and Bourbon County. Read below the action taken by the leading business men of Maysville.

TO THE VOTERS OF MAYSVILLE AND MASON COUNTY:

The City of Maysville is the only part of Mason County that will be seriously affected by the result of the local option to be held September 28, 1914, for the reason, that no matter how the election goes all the rest of the county will remain as it now is, so far as the legalized sale of liquor is concerned.

Even should the vote be against local option, yet it would not be lawful to sell liquor anywhere in the County except Maysville. This being true, the undersigned business men and taxpayers, citizens of Maysville, feel justified in appealing to the voters of Mason County, and particularly to those residing out side of Maysville, in deciding how they should vote upon this question, to respectfully consider the wishes and welfare of their fellow citizens residing in Maysville.

We believe that the business of

our city will be very seriously injured should local option carry, and we will be deprived of the revenue derived from license fees which go very largely toward paying the annual expenses of the City of Maysville. The amount of revenue which we will be thus deprived of will have to be supplied from some other form of taxation, and will have to come from those owning property and doing business in the City of Maysville.

In so far as the morals of the community are concerned, instead of the traffic being regulated by the law and paying high license fees to the City Government, we would have substituted therefor the illegal sale of liquors through the medium of blind-tiger and speak-easys. As between the two, we consider the former condition for more preferable.

We, therefore, appeal to all well-thinking voters to assist us in preserving the trade and business prosperity of our City and County as our interest are identical, and the prosperity of both go hand in hand. Maysville being prosperous means a better market for the agricultural products of Mason County, and a greater return for those who cultivate the farm.

DEATHS.

HUDDLESTON.

—Mr. William Huddleston, aged 73, at one time one of the largest land owners in Nicholas county, died near Carlisle, Saturday. Mr. Huddleston owned over 1,000 acres of fine farming land in Nicholas county, but business reverses wasted his estate and he died poor.

DAYTON.

—Mrs. Nettie Gardner has received a message that her nephew, Herman Dayton, 24 years old, was drowned a few days ago in California, and the body would be buried at Pleasant Valley, Ky., his home, Sunday afternoon at 3 o'clock. Mrs. Mary Mason, the venerable grandmother of the unfortunate young man, resides in this city with her daughter, Mrs. John Rice, on Nineteenth street. Mr. and Mrs. William Mason, of the county; Mrs. Gardner and Miss Kate Gardner attended the funeral.

LANCASTER.

—The funeral of John L. Lancaster, who died Thursday afternoon at the Massie Hospital, was held Saturday morning at 9:30 o'clock at the home of his brother, C. J. Lancaster, on Seventh street.

The services were conducted by Rev. W. E. Ellis and the body was taken to Lexington on the Louisville & Nashville train leaving here at 10:27 o'clock, and buried in the family lot in the Lexington cemetery. The following friends acted as pallbearers: John Glenn, Anderson Cahal, Leer Stout, J. J. Connell, Henry Grosche and Edward Kelly.

TALBOTT.

—Mrs. Mary Talbott, aged 78 years, died at the Harrison Hospital at Cynthiana, Sunday afternoon, from the effects of injuries sustained in a fall several days ago at the home of her nephew, Mr. James W. Smiser. Mrs. Talbott was the widow of Mr. James Henry Talbott, a prominent farmer of the Shawhan precinct, who died several years ago. After the death of her son, Mr. Charles Talbott, for many years Sheriff of Bourbon county, about five years ago, the farm was sold and Mrs. Talbott went to Cynthiana to make her home with the Smiser family. Mrs. Talbott was an aunt of Mr. Charles T. Eals, the real estate dealer of Cynthiana.

The funeral arrangements have not yet been completed.

"The Million Dollar Mystery."—Episode No. 9—The Leap From an Ocean Liner—Having succeeded in making Florence believe her sweetheart, Norton, false, the conspirators strive desperately to get Florence into their power and to rid themselves of Norton's presence in the game. They secure a medical certificate signed, under threat, by two doctors to the effect that Florence is insane, cleverly abduct her right under the nose of the police, and carry her aboard an out-going liner. This episode thrills with startling action. Florence, when far out at sea, leaps from the ocean liner in the dead of night, battles with the waves, is finally rescued by a fishing schooner, and carried to the humble fisherman's home. But her mind is a blank.

Richmond Organization Thinks Prohibitionists Will Turn on "Weed"

RICHMOND, VA., July 21.—With attacks already being made against the use of cigarettes and many ministers seeking to prevent the sale of luxuries on Sunday, the Richmond tobacco trade, believes that the State-wide prohibition election to be held in Virginia this year will be followed by a fight against the use of tobacco.—From the Virginian Pilot, Norfolk. Public Renting

—OF— SPLENDID BLUE GRASS FARMS

Monday, Oct. 5, 1914.

1st—As agent of Joseph H. Clay, I will rent publicly, at the Court House door, in Paris, Kentucky, about the hour of 11 o'clock, a. m., on

MONDAY, OCTOBER 5, 1914,

to the highest and best bidder, the farm containing about 364 acres, belonging to Joseph H. Clay, lying and situate on the Escondida Station turnpike, near Escondida Station, in Bourbon County, Kentucky. There are upon this farm two comfortable tenant-houses, with the necessary outbuildings attached. About 7 acres of said lands are to be cultivated in tobacco, about 127 acres in corn, 45 acres in meadow, and the remainder in grass; that in meadow and grass to so remain. The lands so to be cultivated in corn and tobacco are the same lands now in cultivation in said crops during the present year.

TERMS—Said land will be rented for a term of one year, beginning March 1, 1915, and ending March 1, 1916, and for the rental a note payable to the undersigned as committee of Joseph H. Clay, with good surety to be approved by the undersigned, will be required, said note to become due and payable March 1, 1916.

2nd—Also at the same time and place, as agent for Miss Letitia Clay, I will rent publicly, to the highest and best bidder, her farm lying and situate immediately upon the Paris and Winchester turnpike, in Bourbon County, Kentucky, about 5 miles from Paris, and containing 227 acres, of which 91 acres is to be cultivated in corn and the remainder is in grass and is to so remain.

TERMS—Said 227 acres will likewise be rented for the period of one year, beginning March 1, 1915, and ending March 1, 1916. One-third of the rental to be paid in cash on March 1, 1915, one-third September 1, 1915, and the remaining one-third March 1, 1916, and for which said rental notes with good surety, to be approved by the undersigned and payable to Miss Letitia Clay, will be required.

3rd—Also at the same time and place, as agent for the committee of George Clay, I will rent publicly a tract of 50 acres of land lying and situate immediately upon the Paris and Winchester turnpike, adjoining the above described lands of Miss Letitia Clay, and upon which 50 acre tract there is a good and substantial brick dwelling with all necessary outbuildings, all in a first-class state of repair. Immediately adjacent to the residence there is a splendid spring with a continuous flow of water throughout the year. Of the said 50 acres, approximately 6 acres are to be cultivated in tobacco and approximately 24 acres in corn or truck garden, and the remainder is to remain in grass. The lands to be cultivated in corn and tobacco are the same now in cultivation in corn and tobacco at this time.

TERMS—Said land will be rented for the term of one year, beginning March 1, 1915, and ending March 1, 1916, and for the rental a note with good surety to be approved by the undersigned, payable to H. C. Howard as committee of George Clay, will be required.

THE TRUTH About the Saloon!

More Human Lives Added To The Toll of The Liquor Men of Paris.

We judge the thing, if it is good or bad by its results. That is a principle of business. Let us judge the saloon, the agent of the liquor traffic in Paris by its results.

On last Saturday evening three men, inflamed with whisky, which was bought in a Paris saloon, engaged in a quarrel, and as the result two men are now forever beyond the pale of the saloon, cold dead corpses, another near deaths door. Who these men were does not matter, but they were some one's son, some one's brother, whether black or white. Their lives were worth \$16,000 per year. Is not the life of your father or brother worth more than the tax on liquor men give Paris? In the past week count for yourself the men who are lying in their graves as the result of these saloons. The actions of men inflamed by whisky, sold by the saloon keeper, licensed by the town, approved by the voter, you the voter, You Mr. VOTER shall say on September 23rd if lives are to pay the toll of the saloons.

Last week from a saloon on Main street was a trail of blood on the pavement for two blocks. Maybe the injured man ran into the door, maybe he fell, but you know what might have happened. To every saloon in Paris can be traced streams of blood, fresh and still warm. Now the saloon keeper is endeavoring to wash it away, before you, Mr. VOTER, shall see it.

Are you proud of this record
of the past few weeks?

Is this saloon and bloodshed
"TRUE TEMPERANCE?"

(Advertisement)

Words to the Wise.

The overwhelming defeat of State-wide prohibition in Texas, coming after the withering rebuke administered to Hobson by Alabama, indicates the subsidence of the tidal wave of fanaticism which was sweeping over the South.—Henry Watterson in Courier-Journal.

It hasn't been a great while since Assistant Superintendent Richardson, of the Anti-Saloon League, of Georgia, uttered this wail: "Beer is sold here right and left, and I know it. You can get whisky too; for what does it mean when twenty-seven carloads of beer and whisky are shipped here?"

Some one who thinks should have politely informed Brother Richards that it meant two things: That there are a good many thirsty people in Atlanta, and that prohibition is a humbug.

Prohibition has defenders, but it has no defense.

Are you going to vote in favor of fattening Lexington to the extent of about \$250,000 annually by voting out the saloon in Paris?

It is said by a Paris saloonkeeper that in four weeks he purchased 17,000 empty beer and whisky bottles from a party in Carlisle. — Carlisle Advocate.

Crime originates in the head and not in the stomach...The saloon has about as much to do with crime as the man in the moon.

Lexington reached out and drew to herself the Burling Tobacco Society, which had been nourished in its infancy and "taught to walk" by Winchester...And the business men of that city doubtless chuckled in their sleeves at the ease with which they did it. Shall we again be the "easy marks" and witless dupes of Lexington?—Winchester Sun.

There is no law against a dealer in a wet town selling liquor to any man who cares to buy. And there is no law which "prohibits" a man from a dry town spending his money for wet goods in a wet town.

Thus it is seen that Prohibition does not prohibit in the true sense of the word, but only forces the man who wishes to purchase liquor to go to a neighboring town for his drinks. If Paris goes "dry, Paris trade will go to Lexington, just as Cynthiana and Carlisle trade now drifts into Paris.

Keep your eyes open to the situation and vote against Lexington getting fat at the expense of Paris.

When the approach of the officers was known, the players scattered like quail in the brush, but the officers soon rounded them up. They were brought before Judge McMillan and four were fined \$5 and costs, one dismissed and the others confessed judgment and were sent to various sums.

BOURBON FARMERS REJOICING.

Bourbon county farmers have ample cause now for rejoicing, because the fine promises now held out by the weather man and the agricultural bureau for seasonable weather. The county is just now recovering from the effects of a prolonged drought and the vegetation is presenting the appearance of summer rather than of the early fall. The pastures are green, ponds, streams and branches are full of water again, crops are fast ripening and all nature seems rejoicing.

Tobacco cutting has commenced in some sections of the county, and will be continued until the last of the crop is matured and safely housed. The work will be pushed as rapidly as possible, for the last few nights have brought a hint that frost may be far distant, and the farmers and tobacco growers will naturally be desirous of getting their crops under cover before it is nipped by the frost. Peaches, apples, grapes, melons, corn, beans, tomatoes, chickens, etc., are plentiful, and selling at very moderate prices. Business prospects are bright, and the farmers and merchants are greatly encouraged.

GAME BIRDS PLENTIFUL AND COVER WILL BE SCARCE

Quail are reported much more plentiful this year than for the last two seasons, said J. Q. Ward, executive agent of the State Game and Fish Commission. A shortage of cover, due to the prolonged drought, he believes will make the sport exceptionally fine when the season opens the middle of November. Last year unseasonable floods washed away the nests at brooding time, and the year before flood and cold weather got many of the birds. At the same time market hunters were slaughtering and shipping out of the State thousands of birds. By co-operation between the State and Federal departments that has been made too hazardous an occupation to be profitable and Kentucky is rapidly being re-stocked.

The streams, likewise, are being replenished with game. The drought has helped the fish through the spawning season and been beneficial to the fries placed in Kentucky and other rivers by the Government fishery service. The fish spawn in the small tributary streams. Freshets cause the spawn to be washed away and the little fish torn from the protection of the mother to be devoured by enemies or killed by the sediment held in suspension. The lack of freshets has permitted the spawn to develop in shallow water and protected the fries cast in these tributary streams.

RINGLING DAY ALMOST HERE.

Children are now on their best behavior in anticipation of a real holiday treat on September 22, when Ringling Brothers' World's Greatest Shows will exhibit in Lexington. It is expected that this city will send more than its usual number of "sawdust fans" to welcome this popular circus.

Ringling Brothers promise many novelties and innovations and a "bigger and better everything" is the slogan. Preceding the regular circus performance the new spectacle of "Solomon and the Queen of Sheba" will be enacted on the largest stage in the world. This mammoth 1,500-character pageant cost \$1,000,000 and the costumes, scenery and stage properties are said to be a revelation in gorgeousness. Among the 385 scenic acts, are scores of equestrian including the Lloyds, famous English riders; the Borsinis, rolling globe artists; the Balkans, whirlwind riders from the Balkan mountains; the five highest perch acts ever presented; boxing and wrestling kangaroos; five herds of trick elephants; 50 clowns, 20 families of aerialists and a magnificent horse show and speed tournament. The menagerie is larger and more complete than ever and features many animals never before exhibited in America. A free street parade will be given on the morning of show day.

THE VANISHED LOTTERY.

When we went wooing ages since, we learned the lady's views concerning churches, dances, books, or expurgated news; we thrilled to hear her talk of the topics of the day, like Dicken's new novelette or Browning's sweetest play. 'Twas joy enough for us to see the damsel of our choice. It didn't matter what she said—we liked to hear her voice. We took her inner views of faith, we wooed and won and wed, before we had the vaguest glimpse of what was in her head.

It's different now—these modern girls discuss with pith and zest the things their grandmas didn't know or kept inside the chest. The fresh young voices prate of sin, the social evil, vice, and divers other vital things which weren't considered "nice." The swain who woos in day like these no doubt can plague or vex—he knows his darling's inmost thought on every phase of sex!

Our ancient charmers—bless their hearts! did so devise their dress that of the things they wore beneath no manly mind might guess. They showed us hooped and frouny frocks, but all that these revealed not even hinted of the fascinations they concealed. We had to marry ere we knew what ladies really wore—at least no righteous male dared own he'd found it out before!

But nowadays the modest maid rejoices to display her raiment's inner mysteries adown the broad highway! Serene, unblushing, calm and cool, to passersby she shows the ribbons of her brassiere, the texture of her hose. Chemise and slip and knickers, too, the modern fashion bares—none save a blind man now need wed unknowing what she wears!

We paid our court to maids whose forms escaped our avid gaze; who cheated nature's lines and curves in divers cunning ways. If they wore freckles on their arms—as damsels often did—those sweet defects, like dearer charms, remained securely hid. They showed their faces, bared their hands, revealed a furia shoe, but bow-legged, knock-kneed, stout or slims—we wed 'em ere we knew!

Their young supplanters scorn to veil a single curve or line till men (including artists) know what makes "the form divine!" No modern lover raves about his lady's lips or eyes—why should he? He's a connoisseur of ankles, knees and thighs! The mysteries we wed to pierce are solved at tea or dance—Hooray! A man can marry now and never take a chance!

EARLY WAR NEWS.

GERMANS PUSH FORWARD.

LONDON, Sept. 4.—The correspondent of the Times at Dieppe under Thursday date indicates that the Germans are less than twenty-five miles from Paris. He says:

"All day yesterday the head of the wedge which now forms the German right was furiously forcing its way to Paris, battering the rear of the retreating French through Creil, Lenois and Crepy-En-Valois."

"The cannonading broke windows in Chantilly, which is only seventeen miles north of Paris."

"The Germans are also near Soissons."

GERMAN LINES ADVANCE.

LONDON, Sept. 4.—The armies of Germany, Austria, Russia, France and Great Britain are still at death grips in four colossal battles.

A few brief bulletins convey all the important facts that the peoples of Europe know about the war.

The past twenty-four hours has yielded no definite news of the progress of the battle in Northern France. The public is prepared to learn that the German advance continued to the outer lines of the defenses of Paris.

There it is expected that the allied armies will make a stand on the line from Verdun on the east to the sea and attempt with all their might to stay the German avalanche.

The British public has turned hopeful eyes toward the east where the triumphs of Russian arms in the Austrian province of Galicia have been confirmed. In addition to the battle of Lemberg, in which the power of six Austrian army corps were destroyed, it is evident that there has been a simultaneous victory at Tomaszow, a town of some importance, thirty miles southeast of Lodd, in Russian Poland.

ONLY TWENTY-FIVE MILES FROM PARIS.

LONDON, Sept. 4.—In a dispatch from Rouen, France, a correspondent of the Chronicle says he has learned that the French authorities in Paris are considering the surrender of the city to the Germans.

This is in order to avoid the destruction of property from artillery fire.

This will only be done, the correspondent declares, in case the outer line of the defenses of Paris are passed by the invaders.

British, French and Belgian wounded are being transferred from Paris to other cities and the great exodus of the populace of the French capital to the south continues.

The outer ring of forts surrounding Paris, of which St. Cyr is the principal one, is ten miles from the city. This fact reconciles the two dispatches received here, one that the German advance guard was within thirty miles of Paris and the other that they were no closer than forty miles. According to the best information obtainable the Germans were within forty miles of the city and thirty miles from the nearest fort.

ENGLAND CALLS ALL FIGHTING MEN.

LONDON, Sept. 4.—The correspondent of the Times at Clifton Hall, Premier Asquith today started the crusade to stimulate enlistments under the British flag, which he intends to push throughout the country. He is calling upon every able-bodied Briton of military age to come to the help of his country in the hour of need.

CITY'S NAME CHANGED.

LONDON, Sept. 4.—A dispatch to the Reuter Telegram Company from St. Petersburg says that by imperial order the city of St. Petersburg, capital of the Russian Empire since 1712, will henceforth be known as Petrograd. This change eliminates the Teuton construction in the name by which the chief city of Russia has been known since it was founded by Peter the Great in 1703.

RUSSIANS CAPTURE LEMBERG.

LONDON, Sept. 4.—A Petrograd (St. Petersburg) special to the Reuter Telegram Company says the commander-in-chief has notified the Emperor that the Russians have occupied Lemberg.

The Petrograd (St. Petersburg) correspondent of the Times in a report on the operations around Lemberg, says:

"The forts of Lemberg have fallen and other Austrian armies have been engaged in northern Galicia near Lublin. We may yet have to chronicle the complete disruption of the Dual Monarchy's forces."

The operations extended over an enormous front of 200 miles and probably a million and a half were engaged.

FREAKS IN NAME.

One of our contemporaries down the State inveighs against "the senseless silliness of sticking on a final 'e' to names where it doesn't belong." Some people do a lot of funny things with their names and "senseless silliness" is very appropriate in some instances. This is an era of simplified spelling, but the orthography or proper names gets no better fast. Ever since Molly and Polly and Sally began adding a final "e" to their lovely given names it has been going from bad to worse. When Mamie was transformed to Mayme it looked as if the limit had been reached, but we strongly suspect that some of the male boneheads in this country will some day be calling themselves Jym and Byll instead of the familiar Jim and Bill of their boyhood days.

The burlesque houses might as well stay closed until cold weather comes along. Who wants to look at tights when he can see near Sept. A. M.'s on the street?

Anyway, Adam never had to get up out of bed and empty the pan under the ice box.

DAY TRIP TO ST. LOUIS.

LUKE McLUKE SAYS:

(Cincinnati Enquirer.)

Every woman believes that if she dies before her husband he will dig up some snippy young thing and make her stepmother to the children.

After a woman gets the middle-aged spread she knows that the corset firms are making corsets smaller than they used to, but she will never admit that she is any broader than she used to be.

The old-fashioned girl who used to be afraid that she would show through now has a daughter who wouldn't think of going out until she is certain that you can read a newspaper through her skirt.

Cheer up! The people you envy are busy envying people higher up. We are all willing to grant the Preacher a shorter working day.

Worn Out?

No doubt you are, if you suffer from any of the numerous ailments to which all women are subject. Headache, backache, sideache, nervousness, weak, tired feeling, are some of the symptoms, and you must rid yourself of them in order to feel well. Thousands of women, who have been benefited by this remedy, urge you to

ARE YOUR KIDNEYS WELL?

Many Paris People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles.

If you are nervous, dizzy or worn out.

Begin treating your kidneys at once.

Use a proven kidney remedy.

None endorsed like Doan's Kidney Pills.

Recommended by thousands.

Proved by Winchester testimony.

A. G. McCauley, 134 S. Maple St., Winchester, Ky., says: "I had pains through my kidneys and the kidney secretions were scanty and painful in passage. On the recommendation of a friend, I got a box of Doan's Kidney Pills and the results of their use convinced me of their merit. I now gladly confirm what I said about them before."

The above is not an isolated case.

Mr. McCauley is only one of many in that vicinity who have gratefully endorsed Doan's. If your back aches—

if your kidneys bother you, don't simply ask for a kidney remedy—

ask distinctly for Doan's Kidney Pills the same that Mr. McCauley had.

A SUMMER OF SHOWERS

There has been no general precipitation since early in May or April. The showers that have fallen this summer in Kentucky have been heavy rains, in some places, in point of the amount of water per square inch. But they have not been general rains, and while one section of a county, or one county, has enjoyed a relief from the drought, the adjoining section has remained dry.

What has been needed and is still needed, is a general rain of several days duration. The deepest springs are showing the effects of a long continued absence of adequate water supply. Farms which have an abundance of good stock water—and green pools in the rock long unfed by surface water or springs are not good stock water—are very much the exception to the rule.

Next winter will be a hard one upon owners of stock. Feed will be high and many farms that are abundantly productive in ordinary seasons will be short of grain feed, hay and "roughage." In many places oats was so short it had to be cut with a mower because it could not be bound by a binder, and where there was more or less grain there was very little straw. Corn has been cut short in many counties, and the farmer who has plenty of wheat with which to feed his hogs is in luck this year.

There is little compensation for farmers in the fact that live stock prices are high enough to make it profitable to sell "stocker" cattle and stock hogs in market. This year emphasizes the value of dairying, poultry raising and fruit growing as offsets of crop shortage in short years. Of course dairy cattle and poultry must be fed, but they return a constant profit.

DIARRHOEA QUICKLY CURED

"My attention was first called to Chamberlain's Colic, Cholera and Diarrhoea Remedy as much as twelve years ago. At that time I was seriously ill with summer complaint. One dose of this remedy checked the trouble," writes Mrs. C. W. Florence, Rockfield, Ind. For sale by all dealers. (adv-sept.)

It is mighty funny how the demand for divorces keeps up. There was a time when a man could get fooled because he couldn't see what he was getting. But nowadays he ought to be able to believe his own eyes.

CHAMP CLARK ON ILLITERACY.

Speaker Champ Clark, who was once a school teacher in Anderson County, Kentucky, writes the Kentucky Illiteracy Commission of his experiences in teaching adult illiterates in his day school in Anderson county. He taught middle-aged men who had returned from the army and other adults. Speaker Clark is one Kentucky's distinguished native sons and is watching the illiteracy campaign with great interest. He sends to Kentucky teachers enlisted in this campaign a message of hearty sympathy and good cheer.

\$100—REWARD—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CHAMBERLAIN'S LINIMENT.

If you are ever troubled with aches pains or soreness of the muscles, you will appreciate the good qualities of Chamberlain's Liniment. Many sufferers from rheumatism and sciatica have used it with the best results. It is especially valuable for lumbago and lame back. For sale by all dealers. (adv-sept.)

NEW POPE ELECTED.

ROME, Sept. 4.—The Sacred College of Cardinals, on September 3, elected Cardinal Giacomo Della Chiesa, Archbishop of Bologna, Supreme Pontiff, to succeed the late Pope Pius X. His coronation as Benedict XV. will take place September 6th.

On the election of Cardinal Della Chiesa, Monsignor Poggiani, Secretary of the Conclave, with the master of ceremonies, the Cardinals and other high church dignitaries bowed before the chair where Cardinal Della Chiesa was seated.

He asked if the Cardinal would accept the pontificate, and upon an affirmative reply all the canopies above the Cardinals' thrones were lowered, excepting that of Cardinal Della Chiesa. In answer to the question of the dean of the Cardinals, the new Pope said he desired to take the name of Benedict XV.

Monsignor Poggiani, assisted by the other officials, recorded the act of election and the acceptance, and the members of the conclave then entered the Sistine Chapel with the Pope. The pontiff was clothed in a flowing white robe, red slippers and high stock with a broad red cravat, Cardinal Della Volpe placed on his shoulders a red stole, embroidered with gold. The Pope then mounted the throne to receive the homage of the Cardinals.

The Cardinals first kissed the feet and then the hands of the Pontiff, who administered the accolade and pronounced the benediction. Cardinal Della Volpe placed upon the Pontiff's finger the fisherman's ring, which the Pope returned to Monsignor Damico, to have engraved with his name.

LUKE McLUKE SAYS.

(Cincinnati Enquirer.)

There never was a woman who was so ugly that she didn't imagine that nearly all the men had designs on her.

No man ever lost any votes by going around and telling other people what a fine fellow you are.

The man who can Drink Or Let It Alone is usually the lad the bartender has to lead to the door at midnight.

When a girl wants to marry a man because he is a graceful Tangoer, she never stops to think that he won't be able to sidestep the grocery bills.

You always respect the intelligence of the man who hates the same man you hate.

Some men loop the loop in aeroplanes and the other men take corned girls out for a canoe ride.

There never was a man whose conscience was so clear that he didn't do some worrying when his wife tells him that he talked in his sleep all night.

An Important Engagement can wait while the other fellows are treating. But we have to attend to it immediately when it comes around to our turn to purchase.

The Wooden Wedding comes along about the time a woman realizes that she married a blockhead.

ACUTE INDIGESTION.

"I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two bottles of them I can eat heartily without any bad effects." Sold by all dealers. (adv-sept.)

EARLY MORNING FIRE DAMAGES RUSSELL HOME

Fire supposedly originating from a defective flue early Friday morning called the fire department to the home of Mr. James Russell, on Mt. Airy Avenue. The department made a quick run and succeeded in extinguishing the flames with but slight property loss. The department was called out about midnight Thursday in answer to an alarm from Box 22, to the corner of Hanson street and Lileston Avenue. The alarm proved to have been a false one.

CARD OF THANKS.

I wish to thank my neighbors and the fire department for their valuable service rendered Thursday night when my home was damaged by fire.
